

Jampilen RP340N

Random Copolymer

Description:	"Jampilen RP340N" is a polypropylene random copolymer which features extremely high flow properties, excellent transparency, high gloss and exhibits good antistatic properties. "Jampilen RP340N" is mainly designed for transparent housewares and quality packaging applications. It is an outstanding grade for injection molded containers and thin-walled packaging where clarity is of utmost importance. In many of these applications, "Jampilen RP340N" can replace PS since it can match the optical properties whilst adding low weight, low odor transfer, chemical resistance and impact strength.
Processing Method:	Injection molding Extrusion (Sheet)
Features:	High flow properties Excellent transparency High gloss Good antistatic properties Random copolymer
Typical Applications:	Injection molded containers and thin-walled packaging Clear containers Household articles Packaging for food, cosmetics and pharmaceutical products Lids, caps and closures Coextrusion with other polypropylene resins to produce multilayer sheet for thermoforming trays for fresh pasta and bakery products Sports, Leisure and toys
Approval:	Food
